JOB POSTING: Postdoctoral Fellow in Approximation Algorithms

The Theory Group in the Department of Computing Science at University of Alberta invites applications for a postdoctoral fellowship position. This will be a one-year appointment with the possibility of an extension and can start immediately or some time after (with mutual agreement). The successful applicant is expected to work closely with the host faculty members in the Theory Group (Zachary Friggstad and Mohammad Salavatipour) in the areas of: approximation algorithms, hardness of approximation, combinatorial optimization, and probabilistic and randomized methods.

Applicants must have received their PhD within the past 5 years or are expected to finish their degree soon. Applicants should submit a letter of intent, curriculum vitae, and the name of at least three references willing to submit a letter upon request. These should be sent to one of the faculty members below:

Mohammad R. Salavatipour or Zachary Friggstad
Department of Computing Science
University of Alberta
Edmonton, Alberta T6G 2E8
Canada

Email: `mrs@ualberta.ca`, `zacharyf@ualberta.ca`

Review of applications starts immediately; the position will remain open until filled.
